ASSESSMENT TOOLS
FOR LEARNING SYSTEMS

Respondus 4.0

Used by thousands of institutions worldwide, Respondus 4.0 is a powerful tool for creating and managing online assessments. Whether you're a veteran of online testing or new to it, Respondus saves hours on each project.

- Import exams from Word, including images, equations, and tables
- Access thousands of ready-to-use test banks (free!) from dozens of leading publishers
- Publish assessments directly to your learning system, or print to paper
- Migrate assessments from one learning system to another

StudyMate® Campus

StudyMate Campus makes it easy for teachers and students to create flash cards, self-assessments, and learning games. This fun, interactive tool will transform the learning experience at your school or university.

- Students learn course materials with 11 games and learning activities, including flash cards, crosswords, matching, self-quizzes, and more
- Seamless integration with Learning Management Systems means there are no external websites to go to, no registration steps, and no URLs to track. Simply login to your LMS and use StudyMate like a native tool
- Free student app is also available for iOS and Android

Respondus Test Bank Network

The Respondus Test Bank Network contains 7,000+ test banks for the leading textbooks in higher education. The Respondus Test Bank Network is free to instructors who use Respondus 4.0, and who adopt a participating textbook. There is no quicker or easier way to create online assessments from official publisher test banks.

LockDown Browser®

LockDown Browser is a custom browser that locks down the testing environment within a learning management system. Used at over 1,000 educational institutions, LockDown Browser is ideal for assessments delivered in classrooms or proctored settings.

- Prevents access to other applications and websites during an exam
- Students cannot copy or print exam content
- Assessments are displayed full-screen and cannot be minimized
- Students are locked into the exam until it is submitted for grading

Respondus Monitor®

Respondus Monitor adds webcam and video technology to LockDown Browser to prevent cheating during non-proctored exams – such as those taken from home.

- A fully-automated, scalable solution for online proctoring
- Students use their own computer and webcam to record themselves during the exam
- Instructors can quickly review data and video from the exam session, including automated flagging of suspicious behaviors
- The most cost-effective way to prevent cheating – with pricing over 90% lower than other online proctoring solutions

>
> With Respondus Monitor, I have peace of mind that the right person is taking the test. It works exceptionally well with our LMS, and gives me the flexibility and control I need for online tests.
>
> *Derrick Griffey*
> *Gadsden State Community College*

> LockDown Browser gives teachers the confidence to offer online tests. Without it, we wouldn't be testing online.
>
> *Erin Barrios*
> *Clinton Public Schools*

> StudyMate has proved to be very effective for repeated reinforcement since students can take their learning anywhere and everywhere. Thank you for such a great product!
>
> *Deborah Dalmeida*
> *American University of Antigua*

> I have never used a product that's as self-explanatory and easy to use as Respondus 4. Our faculty are also amazed at how much time they save creating exams with the Test Bank Network and Respondus 4.
